

LMS Teacher Handbook

Introduction

The Learning Management System (LMS) is the primary platform used by instructors to manage courses, students, assessments, attendance, learning resources, and academic communication.

This handbook provides operational guidance for teachers using the LMS efficiently and consistently.

Primary goals:

- Effective course management
- Student progress tracking
- Resource distribution
- Assessment management
- Academic communication

Chapter 1: Teacher Dashboard Overview

After login, instructors access the Teacher Dashboard.

Main sections:

Dashboard

Courses

Batches

Modules

Assignments

Live Classes

Attendance

Announcements

Documents

Reports

Profile

The dashboard provides a centralized view of all teaching activities.

Chapter 2: Managing Courses

Teachers may be assigned one or more courses.

Example:

```
MERN Stack Development
Python AI Engineering
Data Science & Analytics
```

Course information includes:

- Course description
- Duration
- Modules
- Learning outcomes
- Enrolled batches

Teachers should regularly review assigned course content.

Chapter 3: Managing Batches

A batch represents a group of enrolled students.

Example:

```
MERN-2026-A
MERN-2026-B
AI-2026-A
```

Teacher responsibilities:

- Monitor student enrollment
- Conduct classes
- Track attendance
- Evaluate assignments

Batch overview includes:

- Student count
- Attendance statistics
- Assignment completion rates

Chapter 4: Module Management

Courses are divided into modules.

Example:

```
Module 1
HTML, CSS & JavaScript

Module 2
React Development

Module 3
Node.js & Express
```

Teachers can:

- View module details
- Upload resources
- Create assessments
- Track completion

Each module should align with defined learning outcomes.

Chapter 5: Uploading Learning Resources

Teachers can upload:

Documents

Examples:

```
Lecture Notes
PDF Guides
Reference Material
```

Presentations

Examples:

PowerPoint Slides
Workshop Material

Videos

Examples:

Recorded Classes
Tutorial Videos

External Links

Examples:

GitHub Repositories
Official Documentation
Research Articles

Best Practices:

- Use descriptive file names.
- Organize by module.
- Keep content updated.

Chapter 6: Managing Recorded Classes

After conducting live sessions:

Teachers should:

- Upload recordings
- Add descriptions
- Assign modules

Recommended naming:

Module-2-React-Hooks.mp4

Benefits:

- Revision support
- Flexible learning
- Missed class recovery

Chapter 7: Creating Assignments

Teachers can create assignments for individual modules.

Assignment setup includes:

Title

Example:

Build a React Todo Application

Description

Clearly explain:

- Objectives
- Requirements
- Deliverables

Deadline

Specify:

Date
Time
Timezone

Maximum Score

Example:

100 Marks

Chapter 8: Assignment Best Practices

Good assignments should:

- Reinforce learning objectives
- Encourage practical application
- Promote problem-solving

Avoid:

- Ambiguous instructions
- Excessive complexity
- Unrealistic deadlines

Recommended structure:

```
Objective
Requirements
Submission Instructions
Evaluation Criteria
```

Chapter 9: Reviewing Submissions

Teachers can review:

- Submitted assignments
- Late submissions
- Missing submissions

Workflow:

```
Submission
  ↓
Review
  ↓
Feedback
  ↓
Grade
  ↓
Publish
```

Review submissions regularly.

Recommended review period:

Within 7 Days

Chapter 10: Grading Assignments

Evaluation criteria may include:

Correctness

Code Quality

Documentation

Innovation

Presentation

Example:

```
Implementation → 40%  
Code Quality → 20%  
Documentation → 15%  
Testing → 15%  
Innovation → 10%
```

Teachers should provide constructive comments.

Chapter 11: Live Class Management

Teachers can schedule live sessions.

Required details:

Title

Example:

React Hooks Workshop

Date & Time

Meeting Link

Examples:

Google Meet
Zoom
Microsoft Teams

Batch

Select the intended batch.

Chapter 12: Conducting Live Classes

Before Class:

- Verify internet connection
- Test audio/video
- Prepare materials

During Class:

- Start on time
- Record attendance
- Encourage participation

After Class:

- Upload recording
 - Share materials
 - Assign follow-up tasks
-

Chapter 13: Attendance Management

Attendance tracking helps monitor engagement.

Teachers should:

- Mark attendance accurately
- Verify participation
- Review attendance trends

Attendance statuses:

Present
Absent
Late

Attendance reports can be generated through the LMS.

Chapter 14: Attendance Alerts

Teachers should monitor:

Low Attendance

Example:

Below 75%

Suggested action:

Notify Student
Provide Support
Monitor Progress

Early intervention improves outcomes.

Chapter 15: Announcements

Announcements communicate important information.

Examples:

- Assignment deadlines

- Schedule changes
- Workshop invitations
- Exam notifications

Good announcements should be:

- Clear
 - Concise
 - Action-oriented
-

Chapter 16: Student Communication

Communication channels:

- LMS Messaging
- Discussion Boards
- Email Notifications

Response expectations:

24–48 Hours

Professional communication standards should always be maintained.

Chapter 17: Student Progress Monitoring

Teachers should regularly monitor:

Attendance

Assignment Completion

Assessment Scores

Participation

Indicators:

Green → On Track
Yellow → Needs Attention
Red → At Risk

Chapter 18: Supporting Struggling Students

Warning signs:

- Missing assignments
- Low attendance
- Poor assessments

Interventions:

- Additional mentoring
 - Extra practice
 - One-on-one sessions
 - Learning recommendations
-

Chapter 19: Discussion Forums

Discussion forums promote collaborative learning.

Teachers should:

- Encourage participation
- Moderate discussions
- Answer questions

Benefits:

- Peer learning
 - Knowledge sharing
 - Community building
-

Chapter 20: Using LMS Reports

Reports available:

Attendance Reports

Assignment Reports

Submission Statistics

Course Progress Reports

Performance Reports

These reports support data-driven teaching decisions.

Chapter 21: Role-Based Access

Teachers can access:

Assigned Courses
Assigned Batches
Student Records
Attendance Data
Assignment Data
Teaching Resources

Teachers cannot access:

Administrative Financial Reports
Institutional Revenue Reports
System Configuration

Chapter 22: Academic Integrity Monitoring

Teachers should monitor:

- Plagiarism
- Unauthorized collaboration
- Assessment misconduct

Actions:

Document Evidence
Notify Coordinator
Apply Policy

Consistency is essential.

Chapter 23: Course Completion Process

At course completion:

Teachers should:

Finalize Grades

Review Attendance

Submit Reports

Archive Materials

Publish Feedback

Checklist:

- ✓ Grades Published
- ✓ Attendance Verified
- ✓ Reports Submitted
- ✓ Resources Archived

Chapter 24: Troubleshooting Common Issues

Student Cannot Access Resource

Verify:

- Permissions
- Batch assignment
- Upload status

Assignment Missing

Verify:

- Publication status
- Deadline settings

Attendance Error

Verify:

- Student enrollment
- Class assignment

Chapter 25: Best Practices

1. Update course materials regularly.
2. Review submissions promptly.
3. Maintain accurate attendance.
4. Communicate clearly.
5. Encourage participation.
6. Provide meaningful feedback.
7. Support struggling students.
8. Follow academic policies.
9. Keep records organized.
10. Continuously improve teaching methods.

Summary

The LMS serves as the central platform for managing teaching activities, student engagement, assessments, attendance, communication, and reporting. By following this handbook, instructors can efficiently manage their courses, support student success, maintain academic standards, and ensure a consistent learning experience across the institution.
